#### VXC2F

- Paintable
- Lo-Z/Hi-Z switchable
- Single package

#### The slimmest, most compact model in the Yamaha VXC series

**Type:** Full-range, Bass-reflex (2.5")  
**Frequency Range (-10dB, 2π):** 67Hz-20kHz  
**Power Rating (PGM):** 30W  
**Nominal Impedance:** 8Ω  
**Transformer Taps (70V/100V):** 15W, 7.5W, 3.8W, 1.9W (1W for 70V line)  
**Sensitivity (1W, 1m):** 86dB SPL  
**Dispersion:** 160° conical  
**Size/Net Weight:** Ø225 x D 76mm\* / 1.9kg

\* Back-can depth

In-ceiling Subwoofer

#### VXC8S

- Paintable
- Lo-Z/Hi-Z switchable
- Single package

#### An in-ceiling subwoofer with superb sound and the same easy installation as the VXC series

**Type:** Band-pass Subwoofer (8")  
**Frequency Range (-10dB, 2π):** 44Hz-280Hz  
**Power Rating (PGM):** 200W  
**Nominal Impedance:** 8Ω  
**Transformer Taps (70V/100V):** 60W, 30W, 15W, 7.5W (3.8W for 70V line)  
**Sensitivity (1W, 1m):** 88dB SPL  
**Dispersion:** 180° conical  
**Size/Net Weight:** Ø325 x D 315mm\* / 8.5kg

\* Back-can depth

#### Accessories (Sold separately)

#### PK-C4

Pendant-mount kit for VXC2F

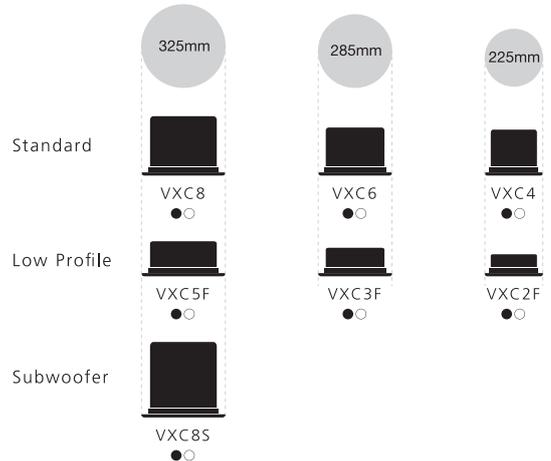

#### AB-C2/AB-C8S

Tile-rail kit for VXC2F/VXC8S

#### VXC Speakers Lineup

### Smart Design for Safer, Faster Installation

The VXC ceiling speakers come with smart mechanical features that contribute to significantly safer, faster installation.

#### Portable

A built-in "Carrying Band" not only makes the speaker easy to carry around, but also increases safety when working on a stepladder.

#### Fast

Double threaded screws used for the speaker clamp mechanism allow the clamps to be tightened twice as fast as conventional screws.

#### Secure

"Anti-drop Tab" mechanism securely holds the speaker in place so that the installation can proceed safely and efficiently. There's also a release lever that allows the speaker to be smoothly removed from the ceiling as required.

#### Streamlined

The supplied speaker grilles are firmly and elegantly held in place by powerful magnets. An anti-drop wire is also included.

Carrying Band

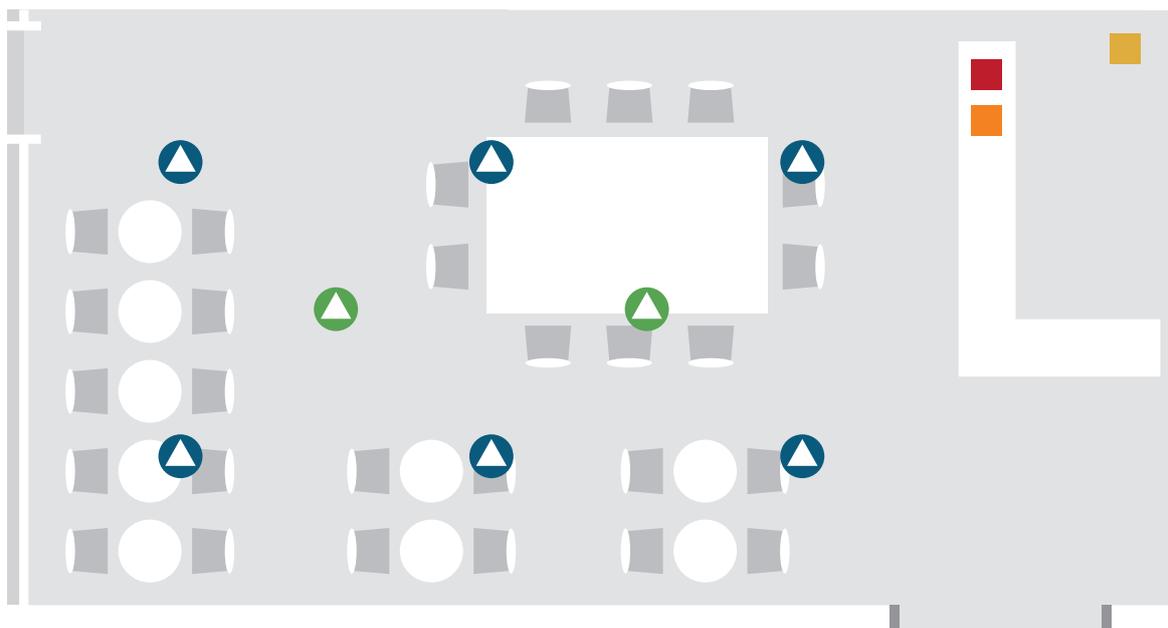

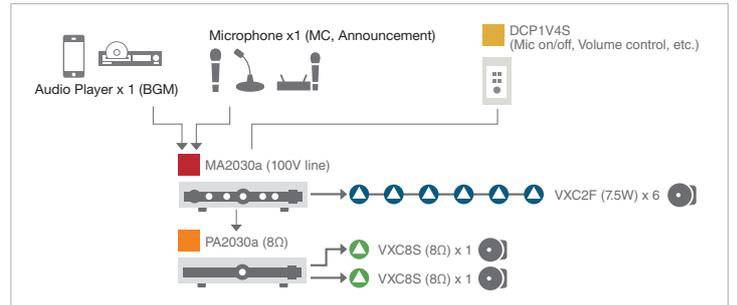

Anti-drop Tab

### System Example (Café)

With VXC2F speakers and a mixer amplifier MA2030a, it is possible to create a streamlined, high-performance system that allows microphone use while background music is being played. Add a power amplifier PA2030a and a ceiling subwoofer VXC8S to create enriched ambient.
